

# Marine LABS

SOLUTION FOR AQUACULTURE HEALTH

## Ultimate Disease Protection

### *Bacillus polyfermenticus* (BP-2)

-  **Unique, patented single strained product**
-  **Protect fish from pathogenic diseases**
-  **Safe, non-toxic & residue-free**

Scanning electron micrograph (SEM) picture

Marine LABS is a microbial feed additive containing concentrated numbers of *Bacillus polyfermenticus* (Strain KJS2) which benefit the host animal by improving the intestinal microbial balance and inhibiting pathogenic viruses and bacteria. Everyday use of Marine LABS helps maintain a balanced digestive system and prevent disease in a natural way.

Applied Marine LABS throughout the grow out cycle can dramatically improve survival of juveniles, increase growth rate, improve feed conversion and significantly improve the profits of your fish farm.
